October 2024

Dear Parents and Carers

Year 7 Assessments

As we move through the academic year, I wanted to take a moment to discuss the importance of assessments in our students' educational journey.

Our assessment policy ensures that children and their families are well informed of when formal tests will take place. We want to make sure assessments are spiraled, covering content from previous learning that will assess both knowledge and skills. In doing this, we hope that your child can prepare in advance and that this can enable you to support at home; making the process more valuable for everyone.

Assessments play a crucial role in not only measuring students' understanding of the material but also in guiding their learning. They provide valuable insights into each child's strengths and areas for improvement, allowing us to tailor our teaching to meet their individual needs.

Here are a few key points to consider regarding the importance of assessments:

1. **Identifying learning gaps:** assessments help us identify where students may be struggling. This enables us to provide targeted support and resources, ensuring that every child has the opportunity to succeed.
2. **Monitoring progress:** regular assessments allow us to track students' progress over time. This ongoing evaluation helps us understand how effectively our teaching methods are working and where adjustments may be necessary. Appropriate interventions can be put in place.
3. **Building confidence:** successfully completing assessments can boost students' confidence and motivation. It gives them a sense of achievement and encourages them to set and reach new goals.
4. **Fostering critical skills:** assessments are not just about grades; they encourage critical thinking, problem-solving, and the application of knowledge. These skills are vital for success both in school and in life.
5. **Communication with families:** assessments provide an opportunity for us to communicate with you about your child's progress. Your involvement and understanding of their academic journey are essential for their growth.

Upcoming assessments in Year 7

GL assessments took place during September and October. Students did not need to prepare for these as they are standardised external tests that allow us to identify gaps in reading and core subjects. We use this data internally to help inform teaching strategies and do not share it with parents, as it is only used for helping us understand their starting points.

There are three formal assessment points for English, Mathematics and Science throughout the year. All other subjects also have three formal assessment points and each of these assessments will fall within a three-week period. Staff will inform individual groups of when these assessments will take place, and the format, and they will also make sure you are informed via Class Charts.

The first set of formal assessments for Year 7 English, Maths and Science will take place:

- Science on Friday 22nd November
- Mathematics on Monday 25th November
- English on Thursday 28th November

Preparing for assessments – What can I do?

- Complete all homework set by the teachers.
- Revise using the Assessment Journals below. These will also be available on our website.
- Scan QR codes in planners for [knowledge organisers](#) (or click on the link provided).
- Attend Snack and Study or Homework Club.
- Set up a study routine with your child.

As mentioned above, these are the formal assessment points but lots of informal assessments will take place in the classroom daily through: questioning; low stakes quizzes; live marking; homework; and from work completed in exercise books.

Report 1 will be sent out after the Christmas holidays. You will receive a third report by the end of this academic year. Students will also receive their percentages from teachers as assessments are marked and should communicate this with you.

Our goal is to create a supportive environment where assessments are seen as a tool for learning rather than merely a means of evaluation. We encourage you to discuss the purpose of assessments with your child, emphasising that they are an integral part of their educational experience.

If you would like any further information, please do not hesitate to contact Miss A Hazell on a.hazell@ormistonvictoryacademy.co.uk or Mr. R Cole on r.cole@ormistonvictoryacademy.co.uk.

Mrs O Ballentine
Vice Principal for Quality of Education

Ms A Hazell
Assistant Principal for Achievement

Mr R Cole
Assistant Principal for KS3

Year 7 Assessment Journal – Autumn 2024
